

Are you looking for a new challenge?

Welcome to Cardiac Services in Swansea Bay.

The Cardiac Centre at Swansea Bay are looking for enthusiastic, dynamic nurses who are keen to work at the leading edge of Cardiology and Cardiothoracic practice in a lively, fast-paced setting. You will need to be a highly motivated nurse who is committed to delivering high standards of care and can demonstrate excellent clinical and communication skills.

The Cardiac Centre consists of 7 clinical areas encompassing all aspects of Cardiac/Thoracic patient interventions. There will be opportunities to rotate and advance with our Band 5 development programme in these specialised areas, no experience needed, all training will be provided. The Centre covers South-West Wales, delivering a combination of emergency and elective therapies that provide life-saving treatment to our patients.

This is a great opportunity to develop your clinical experience and skills in a diverse and vibrant environment that includes both medical and surgical nursing. As a band 5 staff nurse you will have the opportunity to provide specialist care to patients with a variety of cardiac conditions, caring for people who require cardiac investigations and interventions such as Angioplasty (Primary and Elective), Electrophysiology studies, TAVI, Ablations and Pacemakers/Devices. Our primary angioplasty service is one of the busiest in the country and we pride ourselves on the aftercare provided to patients following their cardiac event.

Our Cardiothoracic speciality offers surgery for patients via emergency or elective pathways, these include open heart surgery, and thoracic surgery to treat lung cancer or other invasive respiratory complaints.

If you are looking for a career in Cardiology/ Cardiothoracic nursing, this is your chance to be part of an exceptional, friendly and supportive team.

Come join us, we would love to hear from you.
