

University Hospitals of Morecambe Bay NHS Foundation Trust

An exciting opportunity has arisen to join the Rheumatology team within the University Hospitals of Morecambe Bay NHS Foundation Trust (UHMBT). We are seeking a clinician with imagination, drive and commitment to work across Morecambe Bay.

10PA Full time, but applications would be welcome from those wishing to work part time.

This is a great opportunity to be part of the Rheumatology Department who are seeking a replacement Consultant Rheumatologist to join a team of 3.5 consultants, 4 specialist registrars, 2 GPST's, specialist nursing staff and fully functional wider MDT, supported by input from all associated specialties.

This is a replacement post and we are looking to appoint an enthusiastic and forward-looking rheumatologist. There is no GIM commitment for this post. The post is for a full-time contract (10 PAs) but the option to work flexibly (less than full time) exists if it is the candidate's preference. The job is available as soon as a successful candidate is appointed. The appointee will be required to offer the appropriate level of skills in general rheumatology whilst expertise in a sub-specialist area would be welcomed, particularly in ultrasound

We actively encourage involvement in research and education. There are plenty of opportunities to work with Lancaster University and Lancaster Medical School.

The post will be based at Lancaster Royal Infirmary with the expectation to work at the other sites as required.

We serve a population of over 300,000 people across North Lancashire and South Cumbria. We are also a Teaching Hospital for Lancaster University Medical School.

We are perfectly positioned with the Lake District on our doorstep and Manchester only one hour away. There is access to delightful countryside, excellent leisure facilities and low cost housing as well as state grammar schools for boys and girls both of which are outstanding.

Applicants must possess MRCP or equivalent, be fully registered with the GMC and hold a license to practice. Applicants must have entry on the GMC Specialist Register for Rheumatology via CCT (proposed CCT date must be within 6 months of the interview date).

**** Please Note:** all interviews will be undertaken virtually via Microsoft Team Meetings this is to ensure we all stay safe and are COVID secure
