<b>Band</b>	<b>FY3-ST3 equivalent</b>
<b>Division</b>	<b>Child Health</b>
<b>Responsible to</b>	<b>Clinical Director, Child Health</b>
<b>Hours</b>	<b>Full-time hours</b>
<b>Start Date</b>	<b>26<sup>th</sup> November 2022</b>
<b>Location</b>	<b>Noah's Ark Children's Hospital for Wales, Cardiff</b>

Applications are invited for a Junior Clinical Fellow post in Tertiary Neonatology at Noah's Ark Children's Hospital in Cardiff. This post is available from 26<sup>th</sup> November 2022 for 2 years. There is also a Junior Clinical Fellow post that is available from now until 5<sup>th</sup> September 2023

The Cardiff and Vale University Local Health Board offers a full range of regional specialties for children in Wales. This is an exciting opportunity to gain Neonatal experience at a world class Children's hospital, with a wealth of training and education opportunities available to successful applicants. The NICU at the UHW site provides specialised tertiary neonatal services for the whole population of South Wales with a small number of referrals from England. Whilst these are not accredited training posts, they attract the same training opportunities, including study leave, a named educational supervisor, and a very active educational program equal to that received by deanery trainees.

The post is available as soon as possible for 2 years, with good prospects of 6-monthly rotation through the range of paediatric subspecialties within the Children's Hospital, subject to your performance, interest, and post availability nearer the time. The Children's Hospital for Wales offers a full range of Regional Specialties for children in Wales.

We are a teaching health board with close links to Cardiff University. The University boasts a high-profile teaching, research, and development role within the UK and abroad. Together, we are training the next generation of medical professionals.

References will be required to cover a minimum of two years of previous employment and/or training. A satisfactory disclosure check will be required of the successful applicant. The UHW reserves the right to close the advert early if suitable candidates apply. In view of Border Immigration Agency regulations, all applicants must state their current immigration status including expiry dates. Due to the volume of applicants, we may only be able to recruit candidates with previous UK experience within the NHS.
