These are available on the intranet in the Infection and Prevention Control section. If, as a routine part of your job, you do not have access to the intranet please discuss with your line manager how you can access this information to ensure that you are familiar with your responsibilities.

SAFEGUARDING

HDFT takes its responsibility to safeguard and protect the welfare of both adults and children very seriously. During the annual appraisal process appraisers will use the appropriate documents to work with post holders to identify the relevant competencies necessary for this role and ensure the post holder is competent to undertake any appropriate duties or requirements to safeguard adults and children.

For child safeguarding issues the relevant documents are the HDFT Child Protection Training Strategy and the Intercollegiate Document “Safeguarding Children: the Roles and Competencies of Health Professionals.” For adult safeguarding issues the relevant documents are the HDFT Safeguarding Adults policy, particularly the Training Needs Analysis.

Safeguarding also means ensuring that fundamental aspects of care, such as appropriate nutrition, preventing falls and minimising the risk of pressure ulcer formation, is provided for each patient in our care.
